Resorts World Genting in Malaysia to add new theme park

Resorts World Genting in Malaysia revealed that it will open a new outdoor theme park called Genting SkyWorlds soon. The park will feature attractions based on international class movies and 20th Century Fox films such as "Planet of the Apes" and "Minions".

A previous report by The Edge Markets in June last year, which confirmed that RWG's outdoor theme park will be opening in the second quarter of 2021. If everything goes according to the timeline, we can expect the theme park to be fully opened to the public by June 2021.

Although Genting dropped 20th Century Fox from the name of the new theme park, visitors can still expect to see attractions based on some of the film studio's movies, as well as other "international class" movies.
